- The schedule is blended to ensure students have part of their day with live instruction and part of their day with off-line activities so that students are not sitting in front of their computer screen all day.
- **What is Asynchronous instruction?** This is when students have off-line activities, such as writing, drawing, work on a printout, reading, independent work, at-home treasure hunt, etc.

Remote Instruction Schedule

PS101 2025-2026

- **What is Synchronous instruction?** This is when students are on-line live with their teacher. Ensure your child is online with their camera on when live instruction is occurring as per the schedule above.
- *Students* follow their normal schedule of the day (whatever day of the week happens to be a Remote Instruction Day) which means students will attend their cluster period as per the normally scheduled time.
- *Cluster and AIS Teachers* will follow their normal schedule and teach for the first 25 min of the period live/synchronous and then give asynchronous activities for the remainder of the period.
- *Related Service Providers* (Speech, OT, PT, etc) follow their usual servicing schedule.
